# INTERNATIONAL EUROPE CLASS MEASUREMENT FORM

Authority\*: International Yacht Racing Union  
27 Broadwall, Waterloo, London SE1 9PL, United Kingdom

Remember amendments 1999 and 2000  
21.1.00 N.

\* The International Yacht Racing Union (IYRU) is not a National Authority (NA).

## GENERAL NOTES AND INSTRUCTIONS

### For the Builder and Owner

1. The builder shall pay the International Class Fee (ICF) to IECU. The IYRU will issue an IYRU ICF sticker, an ICF Receipt (ICFR) and a Measurement Form.
2. The builder shall fix the ICF sticker to the main bulkhead, to starboard of the centreline and shall complete Part 1 of this form.
3. The builder, or owner shall apply to the owner's NA (or CA if issue of sail numbers has been so delegated) for a sail number, enclosing the ICFR.
4. Unless otherwise agreed with the owner the builder shall arrange for an official measurer to take all the measurements in Part 2 of this form before the hull leaves the Builder's premises.
5. The builder shall provide the owner with the ICFR and this form, with Part 1 and Part 2, unless otherwise agreed as in paragraph 4, complete when the boat is supplied.
6. The owner (or the builder) shall arrange for an official measurer or measurers to take all the measurements in Parts 2 to 6 inclusive on this form. Each part, or page may be undertaken by a different measurer. The measurer(s) shall complete and sign part 7 for those measurement form items completed.
7. The measurement form shall be passed to the owner.
8. The owner shall complete and sign part 8 of this measurement form and then send it, complete except for part 9, to his/her NA (or CA if the CA is the delegated certificating authority) together with any fee that may be required.
9. Parts 3,4,5 and 8 may be copied for the following purposes:
  - (i) Parts 3, 4 and 5 - as a measurement record for replacement foils (centreboard and rudder blade), spars (masts and booms) and sails so that the owner may fulfil his/her responsibilities in compliance with IYRR 20.
  - (ii) Part 8 - to provide an 'owner's declaration' for the certificating authority before that authority issues a new 'change of owner' certificate.

### For the Measurer(s)

9. If the Measurer is in any doubt regarding the accuracy of any part of the boat, its spars, foils, sail and equipment, he/she shall report it in the remarks space (Part 7) of this form.
10. The boat, its spars, foils, sail and equipment are required to conform to all the class rules even if not specifically mentioned on this form.
11. All dimensions are in millimetres (mm) unless otherwise stated. The measurement found shall be entered in the actual column. Any other form of entry is not acceptable.

### 12. Definitions

- (i) The "aft measurement point" (AMPt) is the intersection of the underside of the hull on the centreline with the transom, both extended if necessary.
- (ii) The "aft measurement plane" (AMPn) shall be a transverse plane through the AMPt perpendicular to the base line. It is vertical.
- (iii) The "base line" shall be as shown on the hull measurement diagram. It is horizontal.
- (iv) For the purpose of 12(i) the transom is an imaginary surface enclosed by the aft edge of the underside of the hull shell and a line joining the port and starboard sheerlines at the aft end of the hull shell.

PART 1		IYRU PLAQUE NO: .....
To be completed by the <b>BUILDER</b> before the hull or kit leaves the Builder's premises or if a complete hull before it is presented for measurement.		
1.1	Builder's Name: ..... Address: ..... .....	
1.2	(a) Are you a professional boat builder licensed by the IYRU to build Europe Dinghies? (b) If not a Licensed Builder have you built another Europe dinghy in the last 12 months?	Yes/No Yes/No
1.3	Has the ICF been paid and, if a complete hull, has the sticker been fixed to the main bulkhead to starboard of the centreline?	Yes/No
1.4	Do you certify that the hull/kit has been built to comply with the Class Rules of the International Europe Dinghy?	Yes/No
1.5	Date hull/kit completed: ..... Builder's Signature: ..... Date: .....	

PART 2 - HULL		
IDENTIFICATION MARKS (Rule 2.6.1)		
2.1	(a) Is the IYRU ICF Plaque fixed to the starboard side of the main bulkhead?	Yes/No
	(b) Is the maker's name shown on the inside face of the transom on the starboard side?	Yes/No

Measurement should not be undertaken until the builder has complied with Rule 2.6.1.

Invert the hull and set it up level both fore and aft and transversely. The transverse level shall be taken to be a horizontal line through the sheerlines at the transom station. Establish and mark the positions of the measurement stations on the centreline and at the rubbing strake each side.
